## ECOLOPHARM RECEIVES ITS *ECORESPONSIBLE CERTIFICATION*<sup>™</sup> – *ECODESIGNED PACKAGING*

Chambly, October 24, 2018 – EcoloPharm is proud to display its *ECORESPONSIBLE*<sup>™</sup> certification – *Ecodesigned packaging* issued for the EcoloVial by the Council for Sustainable Industries (CID).

"Our ecodesign efforts are now being formally recognized, which allows us to distinguish ourselves amongst our customers and business partners," underlines Sandrine Milante, President & CE of, EcoloPharm.

This program, developed by the **Council of Sustainable Industries (CID)** with the support of its partners, **RECYC-Québec** and **Eco Entreprises Québec (ÉEQ)**, stands out for its innovative and unique character in North America, whose foundation is based on a process that is both simple and rigorous..

By obtaining its *ECORESPONSIBLE*<sup>™</sup> Certification – *Ecodesign packaging* the company proves the seriousness of its approach in order to meet the requirements of an increasingly sensitive market in regards with the importance of reducing the ecological footprint.

## **ABOUT CID**

The Council for Sustainable Industries (CID) is an NPO that contributes to the global sustainable development movement by supporting executives and companies wishing to make the eco-responsibility a business solution. In order to serve this movement, the CID promotes an **ECORESPONSIBLE™** program that includes a set of strategies and tools to support companies that want to globally improve their sustainable development management. The program encompasses the following elements:

- Four-level **ECORESPONSIBLE** certification
- Ecoleadership program methodology to support organizations in achieving **ECORESPONSIBLE** certification levels
- **ECORESPONSIBLE™** Certification – Eco-designed product or packaging
- **ÉCOLEADERS** network for ecoresponsible business practices.
